STEININGER FOLD WITH M.POD

STEININGER combines puristic modernity, luxurious simplicity and the highest functionality. The kitchens at STEININGER have always set standards that move. The latest kitchen model FOLD is a form-strong statement with cubistic surface made in tombac, a golden and shimmering brass finish. The alloy is made using a computer-based method in millimeter fraction, precisely prepared and perfected by hand. The design is clear, puristic, simple and yet highly functional. The Kitchen FOLD: features the M.POD, a state-of-art integrated high-tech-surface. A variety of functions can be controlled with the intelligent 32-inch touchpad made of specially hardened and optically bonded safety glass. The perfect combination of aesthetics, function, design and high-tech.

THE MODERN FIREPLACE

From the traditional fireplace to old kitchen designs made of clay. From a framework of bricks to a proper room. From the ordinary room to the oasis of well-being and the second living room: the kitchen has successfully established itself as a living space in the last few centuries. In the past, it was only used as a facility for mass catering, but today it is a communicative hub in everyone's home. Only a few decades ago, the components included nothing more than the stove, the refrigerator and the sink. But modern technology has also found its way into the kitchen. The kitchen is the room where improper setup can make the work process particularly stressful. Here, aesthetics, function, high tech and security as well as communication and performance go hand in hand. Where every piece of furniture should fit, food is cooked, eaten and the family comes together.

KITCHEN WITH A SMART TOUCH

The new steel kitchen FOLD at Steininger is handcrafted, tailored to each client and equipped with the highest level of comfort. the M.POD a state-of-art high-tech work surface which controls all functions centrally and intuitively. The 32-inch touchpad is integrated into the kitchen worktop surface. The specially hardened and visually bonded safety glass can withstand all the requirements of a kitchen countertop. Neither heat or cold temperatures can affect the smart work surface. It is easy to clean and absolutely hygienic. Using the fastest touch sensors, the M.POD operates just as fast as a smartphone. The intelligent work surface is the interface to the smart kitchen environment, contemporary recipe book, additional control panel and establishes the kitchen as the center of living due to the numerous entertainment apps. This is how the M.POD turns the kitchen into an intelligent Smart Kitchen Hub.

SMART KITCHEN HUB

With over 2 million voice- and touch-controlled apps, cooking becomes an enriched interactive experience. Digital cookbooks and cooking apps, video-based cooking classes on Youtube, grocery lists, but also board games are always at hand. The cooking skills are automatically refined and at the same time the guests are entertained. The kitchen becomes a smart melting point. The multimedia center also controls the music and lighting moods throughout the house. The result is a Smart Kitchen Hub, which works as an entertainment center that centrally controls all smart devices connected via Bluetooth. The integrated speakers offer the highest sound quality, playing your preferred music via Spotify, Amazon Music, Tidal or Pandora.

STEININGER

ABOUT STEININGER

STEININGER stands for purist, exquisite architecture, interiors and kitchens design. Mastermind Martin Steinger heads the headquarter in St. Martin (Upper Austria), with further locations in Linz, Vienna, Hamburg and London. At STEININGERS BESPOKE designs and architectural settings are in demand internationally: they inspire with striking, clear lines, timelessness and sophisticated details.

Martin Steinger is an esthete and a minimalist. Exceptional design is a decisive added value for him, as things has to work. He subordinates all designs to this creed. It defines space, shape and use accordingly. Urban concrete and rare metal alloys complete the range of materials. A new type of spatial, sensory and tactile experience arises.

BESPOKE DESIGN - THE STEININGER COLLECTION

STEININGER designs are a statement of sustainable luxury, style and comfort. This claim continues in the unique kitchen and furniture. Every design from the STEININGER Collection is made to measure. State-of-the-art CAD programs and cutting edge manufacturing technologies in the Austria production, ensure the highest quality. The artisan take care the fine details at the end. STEININGER is a manufacturer and feels committed to the trade.
