STEININGER

ROCK.AIR: UNIQUE OUTDOOR KITCHEN FROM THE DESIGN MANUFACTURE STEININGER

Even the name arouses curiosity. ROCK.AIR is the optical successor of the award-winning model ROCK designed as an outdoor kitchen. It impresses with its puristically reduced appearance, innovative design and high-tech functions for terrace or garden", the designer and also managing director of STEININGER.DESIGNERS gladly said. The new kitchen creation combines everything: High-tech materials meet patented technology, function meets design.

FULLY EQUIPPED, INDIVIDUALLY COMBINABLE

The individual ROCK.AIR kitchen cubes can be individually combined with each other and fulfil different functions: Gas or lava grill, sink, dishwasher, refrigerator and freezer with ice maker, storage space, fireplace. The covers of the individual blocks can be pushed backwards, creating a counter at the back of the kitchen at standard bar height. The patented mechanism allows the cover elements to be moved horizontally to the rear. So, there is a comfortable work surface in the front at a height of about 90 cm and a 110 cm bar counter behind it. The outside surface is made of powder-coated steel and defies all weather conditions.

MINIMALIST PURISTIC DESIGN FROM AUSTRIA

In addition to the concrete kitchen, we now have ROCK and ROCK.AIR, a kitchen that complements and strengthens our presence on the international kitchen markets," managing director Martin Steininger is pleased. The kitchens are completely manufactured in St. Martin in the Mühlviertel region - as always with STEININGER, special attention is paid to the quality of processing. With respect to visual appearance, ROCK.AIR is oriented towards the masters of minimalism, Donald Judd and Adolf Loos. The aim was to design a timeless, robust and durable kitchen that would not become out-of-date either in terms of materials or appearance. Just like Loos said, „Materials and labour have the right not to be devalued every year by new fashions.“

STEININGER

ABOUT STEININGER

STEININGER stands for purist, exquisite architecture, interiors and kitchens design. Mastermind Martin Steinger heads the headquarter in St. Martin (Upper Austria), with further locations in Linz, Vienna, Hamburg and London. At STEININGERS BESPOKE designs and architectural settings are in demand internationally: they inspire with striking, clear lines, timelessness and sophisticated details.

Martin Steinger is an esthete and a minimalist. Exceptional design is a decisive added value for him, as things has to work. He subordinates all designs to this creed. It defines space, shape and use accordingly. Urban concrete and rare metal alloys complete the range of materials. A new type of spatial, sensory and tactile experience arises.

BESPOKE DESIGN - THE STEININGER COLLECTION

STEININGER designs are a statement of sustainable luxury, style and comfort. This claim continues in the unique kitchen and furniture. Every design from the STEININGER Collection is made to measure. State-of-the-art CAD programs and cutting edge manufacturing technologies in the Austria production, ensure the highest quality. The artisan take care the fine details at the end. STEININGER is a manufacturer and feels committed to the trade.
