COME OUT TO COOK!

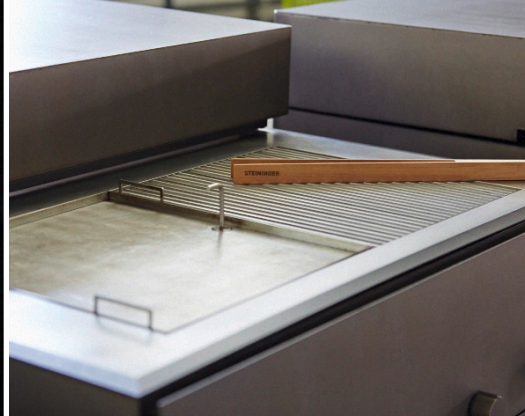

ROCK.AIR is a jewel for all those who want to enjoy conviviality outside during the open-air season. STEININGER's modular outdoor kitchen impresses with functionality and reduced shapes: The monolithic kitchen blocks made of stainless steel are considered as a tribute to Donald Judd, the grandmaster of Minimal Art. Thus, „cooking art“ in the open air takes on a completely new meaning.

The massive island solution ROCK has already been highly convenient for terrace and garden: In 2016, STEININGER won the German Design Award for their unconventional design in natural stone. This year, they start the open-air season with the ROCK.AIR made of stainless steel. Martin Steiner's new edition remains true to his usual purist line. Interior, luxury kitchens and architecture with the Austrian designer's styling are in international demand.

MOBILE CUBES OF FULL-FEATURED FORMAT

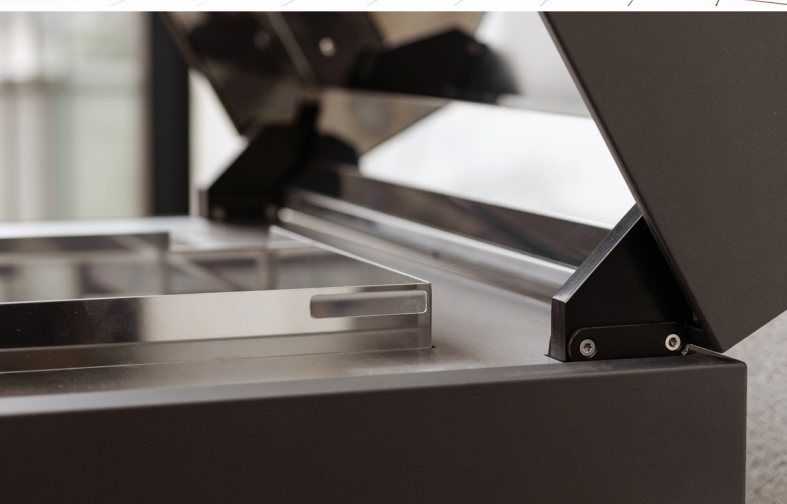

ROCK.AIR is STEININGER's tribute to the minimalist Donald Judd. His installations have already inspired to design the monolithic blocks of the previous model. "Judd worked with cubes and cuboids and grouped them individually. The kitchen cubes can also be flexibly combined," Steiner explains. The modules include a gas or lava grill, sink, dishwasher, refrigerator and freezer with ice maker, storage space and a fireplace. ROCK.AIR gives design-oriented customers the luxury of spontaneously cooking outside, barbecuing, mixing drinks or eating ice cream with friends and family. Everything is there and nothing has to be taken from inside to outside inconveniently. So, cooking becomes a common event and no one stands alone in the kitchen to prepare the food.

DIGITAL PRODUCTION MEETS TRADITIONAL CRAFTSMANSHIP

„ROCK.AIR is in no way inferior to our indoor models. The patented mechanism allows the covers of the individual blocks to be moved backwards. This creates a counter in classic bar height at the back and a comfortable 90-cm-high work surface at the front. Depending on the design, the covers can be either folded or pushed horizontally to the rear. ROCK.AIR thus combines timeless design, high-tech functions and durability,“ Martin Steiningger says. This applies to all kitchens produced in the manufactory in St. Martin according to customer requirements. Most modern production processes are combined with traditional craftsmanship. Order now your ROCK.AIR outdoor modules and fireplaces made to measure. Price on request.

STEININGER

ABOUT STEININGER

STEININGER stands for purist, exquisite architecture, interiors and kitchens design. Mastermind Martin Steinger heads the headquarter in St. Martin (Upper Austria), with further locations in Linz, Vienna, Hamburg and London. At STEININGERS BESPOKE designs and architectural settings are in demand internationally: they inspire with striking, clear lines, timelessness and sophisticated details.

Martin Steinger is an esthete and a minimalist. Exceptional design is a decisive added value for him, as things has to work. He subordinates all designs to this creed. It defines space, shape and use accordingly. Urban concrete and rare metal alloys complete the range of materials. A new type of spatial, sensory and tactile experience arises.

BESPOKE DESIGN - THE STEININGER COLLECTION

STEININGER designs are a statement of sustainable luxury, style and comfort. This claim continues in the unique kitchen and furniture. Every design from the STEININGER Collection is made to measure. State-of-the-art CAD programs and cutting edge manufacturing technologies in the Austria production, ensure the highest quality. The artisan take care the fine details at the end. STEININGER is a manufacturer and feels committed to the craft.
